Accesorios pintados y anodizados para Electrodomésticos

Embega complementa su gama de productos con la fabricación de diferentes accesorios, con acabados pintados y anodizados. Destacan los perfiles delanteros/traseros y bisagras de encimeras, tiradores de hornos y frigoríficos, accesorios de cocinas, accesorios y panelables de frigoríficos,

CARACTERÍSTICAS GENERALES

Dentro de los accesorios anodizados además de la transformación mecánica del aluminio, existe la posibilidad de su acabado estético mediante el anodizado. Consiste en dar un tratamiento superficial, con variedad de colores, texturas (granallado) y brillos (pulido) como:

- Anodizado mate
- Bronce
- Negro
- Plata
- Oro
- Burdeos
- Imitación inoxidable
- Etc.

Después del proceso de mecanizado, es factible aplicar un recubrimiento superficial con pintura en polvo, aunque en este caso a diferencia del anodizado, el material base puede ser otro distinto al aluminio.

Embega tiene la posibilidad de serigrafiar logotipos una vez aplicado el tratamiento superficial.

GENERAL CHARACTERISTICS

Within the range of anodised accessories, in addition to the mechanical transformation of aluminium, the range also includes a choice of aesthetic finishes achieved by means of anodising. This consists of applying a special surface treatment, with results in a variety of colours, textures (shot blasted) and shines (polished) such as:

- Matt anodised
- Bronze
- Black
- Silver
- Gold
- Burgundy
- Imitation stainless steel
- Etc.

After the machining process, a surface coating consisting of powdered paint can be applied, although in this case, unlike with anodising, the base material does not necessarily have to be aluminium.

Embega can also screen print logotypes onto the accessories after the surface treatment has been applied.

Painted and anodised Accessories for Domestic Appliances

Embega complements its range of products with the manufacturing of different accessories with painted and anodised finishes. Of special note are the front/rear worktop profiles and hinges, oven and refrigerator handles, kitchen accessories and refrigerator accessories and panels,
